You bet. Here it is. As you recall, while this Word document is numbered pages 1-4, the PDF version is what got printed to go out to the public so the two page map/Superfund Process, which was only provided as a PDF, could be inserted between pages 2 and 3.

Thank you.

Kim

Kim,
Can you send me a copy of the fact sheet that was mailed in word. I need to use it for something else, and make some changes and I can't convert the pdf,
Thanks,
Bill
